

BETTER WORKING ENVIRONMENTS
FACTORY FLOORS AND MACHINES CLEANER
ELIMINATE RISKS OF SLIPPERY FLOORS

NEW MODEL

Environment Fan

VISION SERIES

Environment Fan

- * The mist collectors are available in a variety of size and versatile configurations to fit your company need.
- * They are suitable for: NC, CNC lathe, machining center, grinding machine, cleaning machine, NC milling machine, automatic press, universal lathe drilling machine, broaching machine, transfer machine, gun drill, etc.

Dimensions

Length	Vision 01	Vision 02	Vision 03	Vision 04
A	290	350	350	420
B	400	430	430	500
C	170	230	230	300
D	230	290	290	360
E	215	290	290	360
G	75	115	125	150
H	350	412	412	482
I	600	740	740	810
J	160	160	160	160

Environment Fan

Features

- * Various types of mists can cause people to have headaches or chapped skin, and can also make the skin sticky when it adheres to the skin. The worker's clothes can be dirty and smelly.
- * When mists adhere to the floor, they can make it slippery, causing falls and other secondary accidents.
- * Work environments filled with mists cause workers to work less hard, reducing productivity.
- * Systems which remove mists to outside the building result in environmental damage. In addition, the effects of heating / cooling systems is reduced, resulting in higher air conditioning costs.
- * The presence of mist may cause the electrical systems within manufacturing machinery to malfunction.

Technical Specification

Model	Vision 01	Vision 02	Vision 03	Vision 04
Power Supply (50Hz)	3 phase 220V / 380V			
R.P.M	2820			
AMP	1 / 0.58	2.57 / 1.49	3.25 / 1.88	4.75/2.75
Air Flow (m ³ /h)	214	411	620	1102
Motor (kW)	0.18	0.55	0.75	1.5
Inlet & Outlet Ø (mm)	75/75	115/115	125/125	150/150
Gross Weight (kg)	32	37	45	52

Note: Single phase motors are also available.

Optional equipment

- * Mounting devices (wall brackers,stands).
- * Air filter gage.
- * AAF grease filter (easy for clearing).
- * Carbon filter (removal of smelling).
